Subject: TA-55 Additional Units Enclosure 2 Discrepancy.

Dear Mr. Kieling:

I am writing in response to a minor discrepancy identified in the Class 2 Permit Modification Request (PMR) for additional storage units at TA-55. The term "fact sheet (Enclosure 2)" in the cover letter of the Class 2 PMR for TA-55 additional storage units is representative of the public notice that was sent out to the New Mexico Environment Department Hazardous Waste Bureau (NMED-HWB) mailing list.

In addition, Enclosure 2 and the fact sheet are not part of the application and are typographical errors in the cover letter.

The U.S. Department of Energy and Los Alamos National Security, LLC or Permittees are providing clarification on the discrepancy (via this email) to the NMED-HWB.

Please contact me at (505) 665-2014 if additional information would be helpful.

Sincerely,

Mark Haagenstad
