FROM: *zw* Lee Winn, Technical Compliance Program

DATE: December 20, 1993

SUBJECT: **Technical Review of RCRA Emergency Permit Application, for the Processing of Nitrated Cheesecloth, Technical Area 55, Los Alamos National Laboratory**

The Technical Compliance Program was requested by the Permitting Program to do a review and provide comments upon the RCRA Emergency Permit Application (**Application**) for the Processing of Nitrated Cheesecloth at Technical Area 55 at Los Alamos National Laboratory.

As a result of the review, there are no apparent technical problems with the Application and no need for further information or clarification of text. The Technical Compliance Program therefore has no comments on the Application.
