Los Alamos, New Mexico 87544-5000

RE: Emergency permit for processing of nitrated cheesecloth at  
TA-55

Dear Mr. Vozella:

Your revised application for a temporary emergency permit for processing of nitrated cheesecloth at TA-55 has been received. Staff have reviewed this revised application for technical completeness and have determined that it meets the requirements for RCRA permits identified in the New Mexico Hazardous Waste Management Regulations-7, Part IX, 40 CFR 270.14, 270.23, and 270.61. The draft permit will be prepared during the next quarter.

Should any further questions arise, the New Mexico Environment Department may request additional information when necessary to clarify, modify, or supplement previously submitted material. Requests for such additional information will not render the application incomplete.

If you have any questions, please contact Stephanie Kruse of my staff at 827-4308.

Sincerely,

Barbara Hoditschek  
Program Manager  
RCRA Permits Program  
Hazardous and Radioactive Materials Bureau
