RCRA Permitting

FROM: Jim Seubert, RCRA Inspector 

RE: RCRA Emergency Permit No. NM0890010515-EP1  
Thermal Decomposition of Nitrated Cheesecloth

As per your request, on December 7, 1994, I conducted an inspection of the Inert Atmosphere Decomposition Unit (IADU) located at Technical Area 55, in Building PF-4, Room 420, Los Alamos National Laboratory (LANL), pursuant to the 90 - day emergency permit referenced above. Jim Balkey, V.J. Valdez, Jodie Plumb and Jeff Carmichael (LANL representatives) accompanied me on the inspection.

After a physical inspection of the unit and a documents review, I concluded that at the time of the inspection, all conditions of the emergency permit had been met.
