Dear Mr. Garcia:

The Department of Energy (DOE) Los Alamos Area Office (LAAO) received the New Mexico Environment Department's comments for their review of the Resource Conservation and Recovery Act Facility Investigation (RFI) Work Plan for Operable Unit 1154 on October 26, 1994. I have forwarded these comments to the Los Alamos National Laboratory (LANL), requesting that they be considered for incorporation into the work plan during any ensuing revisions of the document.

Thank you for your time and valued effort in completing your review of the work plan. Should you have any further comments or questions, please do not hesitate to call me at 665-7202.

Sincerely,

B. M. Koch
