Darlene,

The Los Alamos National Laboratory Environmental Programs Corrective Actions Division has completed field activities associated with the accelerated corrective action (ACA) at Solid Waste Management Unit 61-002. The scheduled activities began on August 7, 2006.

The ACA work plan associated with these activities was submitted to the New Mexico Environment Department in April 2006 (LA-UR-06-2577).

Based on Section VII.F.4 Accelerated Corrective Action Implementation of the NMED/LANL Order on Consent, a Remedy Completion Report will be prepared and submitted to the Department for approval in accordance with Section XI.A within 90 calendar days of completion of the accelerated corrective action.

If you have any questions or comments regarding these field activities, or if you wish to arrange a site visit, please contact me or Melanee Shurter at (505) 667-7369 or at mshurter@lanl.gov.
