Subject: RE: Airport Landfill

Darlene:

I have reviewed DOE-LASO TA-73 Airport Landfill Infiltration Layer Pad Construction Procedures and Results and have no comments. The test pad results appear to indicate that the cover will be able to meet the design requirements for saturated hydraulic conductivities of the infiltration layer.

Please let me if you need me to do anything else.

Thanks
Mohamed

Mohamed,

I just received this last week. Can you take a look at it for me? Thanks.

Darlene
