Re: Permit #NM 5572124456, Melrose Air Force Range (AFR), NM

Dear Mr. Gallagher

As discussed in Cannon's letter dated 12 Mar 91 the attached photographs are being provided for your review. The sizes and quantities of waste munitions shown in the photographs are typical of the monthly treatment process. The intention of providing these photographs and the corresponding narratives is to help you better understand the magnitude of operations at the Melrose AFR thermal treatment facility. These photographs may be inserted at the back of our permit application.

Any questions concerning this submittal may be directed towards Mr. Jim Richards at (505) 784-4639.

Sincerely

*Thomas N. Chapman*  
THOMAS N. CHAPMAN, Colonel, USAF  
Commander
