RE: Administrative Completeness
NM5572124456

Dear Mr. Richards,

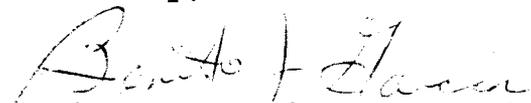

The New Mexico Environment Department has completed its administrative review of the Melrose Air Force Range (AFR) permit application for an operating permit under the Resource Conservation and Recovery Act. The application has been found to be administratively complete in accordance with the New Mexico Hazardous Waste Regulations (HWMR-6), Part IX, 40 CFR §270.10(c). It addresses one hazardous waste unit that is for open burn/open detonation treatment and disposal of waste explosives.

New Mexico Hazardous Waste Fee Regulations require the assessment of permit fees when an application is declared administratively complete. The fee for the AFR is \$19,000; a statement and work sheet are enclosed. A Public Participation Fee of \$4,000, which is charged to all hazardous waste permit applicants, is included in the total. This fee is included because, in response to the increasing level of public interest in the permitting process, the Environment Department now automatically schedules public information meetings in communities potentially affected by the issuance of new or modified permits. Review of the application for technical adequacy will begin upon receipt of the permit fee, which is due within 30 calendar days of the date of this letter. Failure to pay the fee within this period will result in permit denial.

Thank you for your cooperation in the permitting process. If you have any questions, please contact Mr. Tom Tatkin or Dr. Herb Grover at (505) 827-4300.

Mr. Richards
January 2, 1992
