Dear Ms. Atherton

Please announce over the radio, between 7:00 A.M. and 6:00 A.M., Sunday through Saturday, between March 21 and March 27, 1993, the following public service announcement:

It is being proposed by the State of New Mexico's Environment Department that Cannon Air Force Base, owner and operator of the Melrose Air Force Bombing Range, be denied the granting of a Resource Conservation and Recovery Act permit for the Base's failure to provide complete information necessary to conduct a technically evaluation. The permit was for a hazardous waste management treatment unit on the Melrose Range.

Along with denial of the permit, Cannon Air Force Base would loose their interim status that allowed them to manage hazardous waste since 1980.

Information regarding this decision may be reviewed at the Hazardous and Radioactive Materials Bureau of the New Mexico Environment, located at 525 Camino de los Marquez in Santa Fe. If you have comments on this matter or if you feel that a public hearing should be held, contact Mr. Tom Tatkin at (505) 827-4308 or write to the Hazardous and Radioactive Materials Bureau, P.O. Box 26110, Santa Fe, New Mexico 87502, Attention: Tom Tatkin, on or before May 7, 1993.

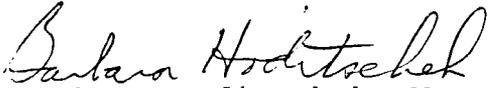

If there are charges for this service, please make the announcement only once. If there are no charges, we would appreciate as many announcements beyond the initial one as you may find suitable. Please submit a certificate of the date(s) and time(s) of the announcements and any bill to:
