**RE: Meeting to discuss the January 6, 1994 Notice of Deficiency
Melrose Air Force Range
NM5572124456**

Dear General Guth:

In order to complete the draft RCRA permit, certain information identified in the January 6, 1994 Notice of Deficiency (NOD) is needed. Cannon Air Force Base (CAFB), owner and operator of the Melrose Air Force Range, has requested a meeting to help clarify details for providing the requested information.

We will be available to meet with CAFB representatives, at our office in Santa Fe on February 1, 1993 at 10:00 a.m.

Scheduling of the requested meeting should not delay the 30-day submittal period specified in the NOD. However, a delay in the receipt of the NOD by CAFB has caused the initiation of the submittal period to be changed. CAFB personnel indicated that the originally mailed NOD had not been received. A copy of the NOD was then faxed to CAFB on January 19, 1994, and receipt of the copy was immediately acknowledged by Captain Greg Walters of CAFB. Therefore, the 30-day submittal period will begin January 19, 1994.

Please contact Tom Tatkin at 827-4308 for further information concerning the meeting or the NOD.

Sincerely,

for *Stephanie Kruse*
