Dear Mr. Honker

The draft Melrose Air Force Range (MAFR) RCRA Facility Investigation (RFI) workplans are attached for your review and approval. Please note that the project schedule and scope may change in the the final workplan. We are currently intending to use Ebasco Services Inc. In order to meet the RCRA permit submittal date for this draft workplan, Ebasco Services was directed to prepare the workplan concurrently with their fee proposal. Depending on the outcome of this ongoing fee negotiation, the Volume I quantities of work and/or timeline could change. The general approach to the work, chemical sampling procedures, etc., will remain the same as indicated in these draft workplans.

If you have any questions, please contact Mr. John Constantine or Mr. Sanford Hutsell at (505) 784-4348.
