Dear Mr. Bearzi

This letter constitutes the second and third quarters' progress report (Apr - Sep 99) by Sec F, Module IV, Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act (RCRA) permit for Melrose Air Force Range, New Mexico. Two quarters have been combined due to no report being submitted in the second quarter because of the absence of the program manager.

During the second and third quarters, Cannon AFB responded to a 26 Mar 99 Request for Supplemental Information from the New Mexico Environment Department by submitting a schedule and scope of work to accomplish the gathering of the supplemental information. No other progress was made on Melrose Range.

If you have any questions, please contact Mr. Sanford Hutsell or Mr. John Pike of my environmental flight at (505) 784-6378.

Sincerely

ROBERT S. PYEATT, GS-13
