MEMORANDUM

TO: Paige Walton, Techlaw
THRU: David Cobrain, Staff Manager, Santa Fe Group
FROM: Glenn von Gonten, Hydrologist *GvG*
CC: John Kieling, Manager, Permits Management Program

**SUBJECT: FINAL RCRA FACILITY INVESTIGATION REPORT ADDENDUM FOR
MELROSE BOMBING RANGE , CANNON AIR FORCE BASE
(FEBRUARY 2003)
CAFM 03-001**

DATE: July 19, 2004

The attached RFI Addendum was submitted in response to a NOD issued to Cannon AFB in 1999 (see Appendix C for NOD comments) for Melrose AFR. Please review the Screening Level Eco-Risk Assessment (SLERA) for compliance with HWB's most recent guidance. Cannon AFB's RCRA permit expires in December 2004; therefore, Cannon was required to submit its renewal application 180 days prior to the expiration date. We allowed Cannon an extension so that HWB could review this RFI Addendum. It may be possible to NFA all SWMUs and not issue a permit to Cannon AFB for Melrose AFR (Cannon never constructed the OB/OD unit for which they received an operating permit. HWB requests that you complete your review by August 31, 2004, so that we may decide whether to call in the permit application or NFA the SWMUs and drop the permit.

If you have any questions, please call me at 505-428-2551.
