Dear Mr. Denton:

The New Mexico Environment Department (NMED) has received HollyFrontier Navajo Refining LLC, Artesia Refinery's (the Permittee) *Extension Request for the Well Installation Report for the Loudon Building (AOC 16)* (Request). The stated reason for the Request is that the Permittee requires additional time to address the issues of semi-volatile organic compound (SVOC) analyses identified during the validation of the laboratory data. The Permittee is requesting an extension date of December 2, 2019 for the report. NMED hereby approves the submittal date extension request for the report to be submitted to NMED no later than **December 2, 2019** as requested.
