20				4:09	
21				3:16	
22				3:35	
23	10			<u>39:11</u>	

Times are for begin purge to end sampling. Does not include losses related to set between wells. Ground water level, set up equipment, calibrate, documentation. is additional (overhead) cost. approx. to 1 hour per well.

This also assumes everything works well (no problems) and that rarely happens.
