Re: Document Request, PNM Person Station

Dear Ms. Cramer:

As we discussed by telephone this afternoon, I work for the Law Firm of Eaves, Bardacke and Baugh, and on their behalf am requesting copies of the following three documents:

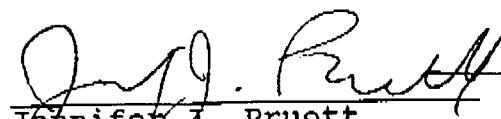

1. Groundwater/Core logs for wells drilled to date; delivered to you 1/4/93.
2. Groundwater flow cross sections; delivered to you 1/4/93.
3. List of wells within one mile radius of Person Station; delivered to you 11/30/92.

Our understanding is that NMED requested these documents from PNM by letter dated October 15, 1992, and that they are all currently in your possession. As some of them are oversized and therefore would be difficult to duplicate in your office, we would be happy to pay for their copying at Alphagraphics in College Plaza. As our request is limited and specific, we hope you can accommodate it today. As we discussed, I will meet you at 2:00 p.m. today to review the documents.

Additionally, I would like to review PNM's contaminant migration evaluation which was also delivered to you 1/4/93. However, you have informed me that I cannot review this item for 14 working days. If you can expedite this in any way I would appreciate it. Please call me as soon as I may review this document.

Thank you for your assistance.

Sincerely,

  
Jennifer J. Pruett
