SUBJECT: Follow up On PNM

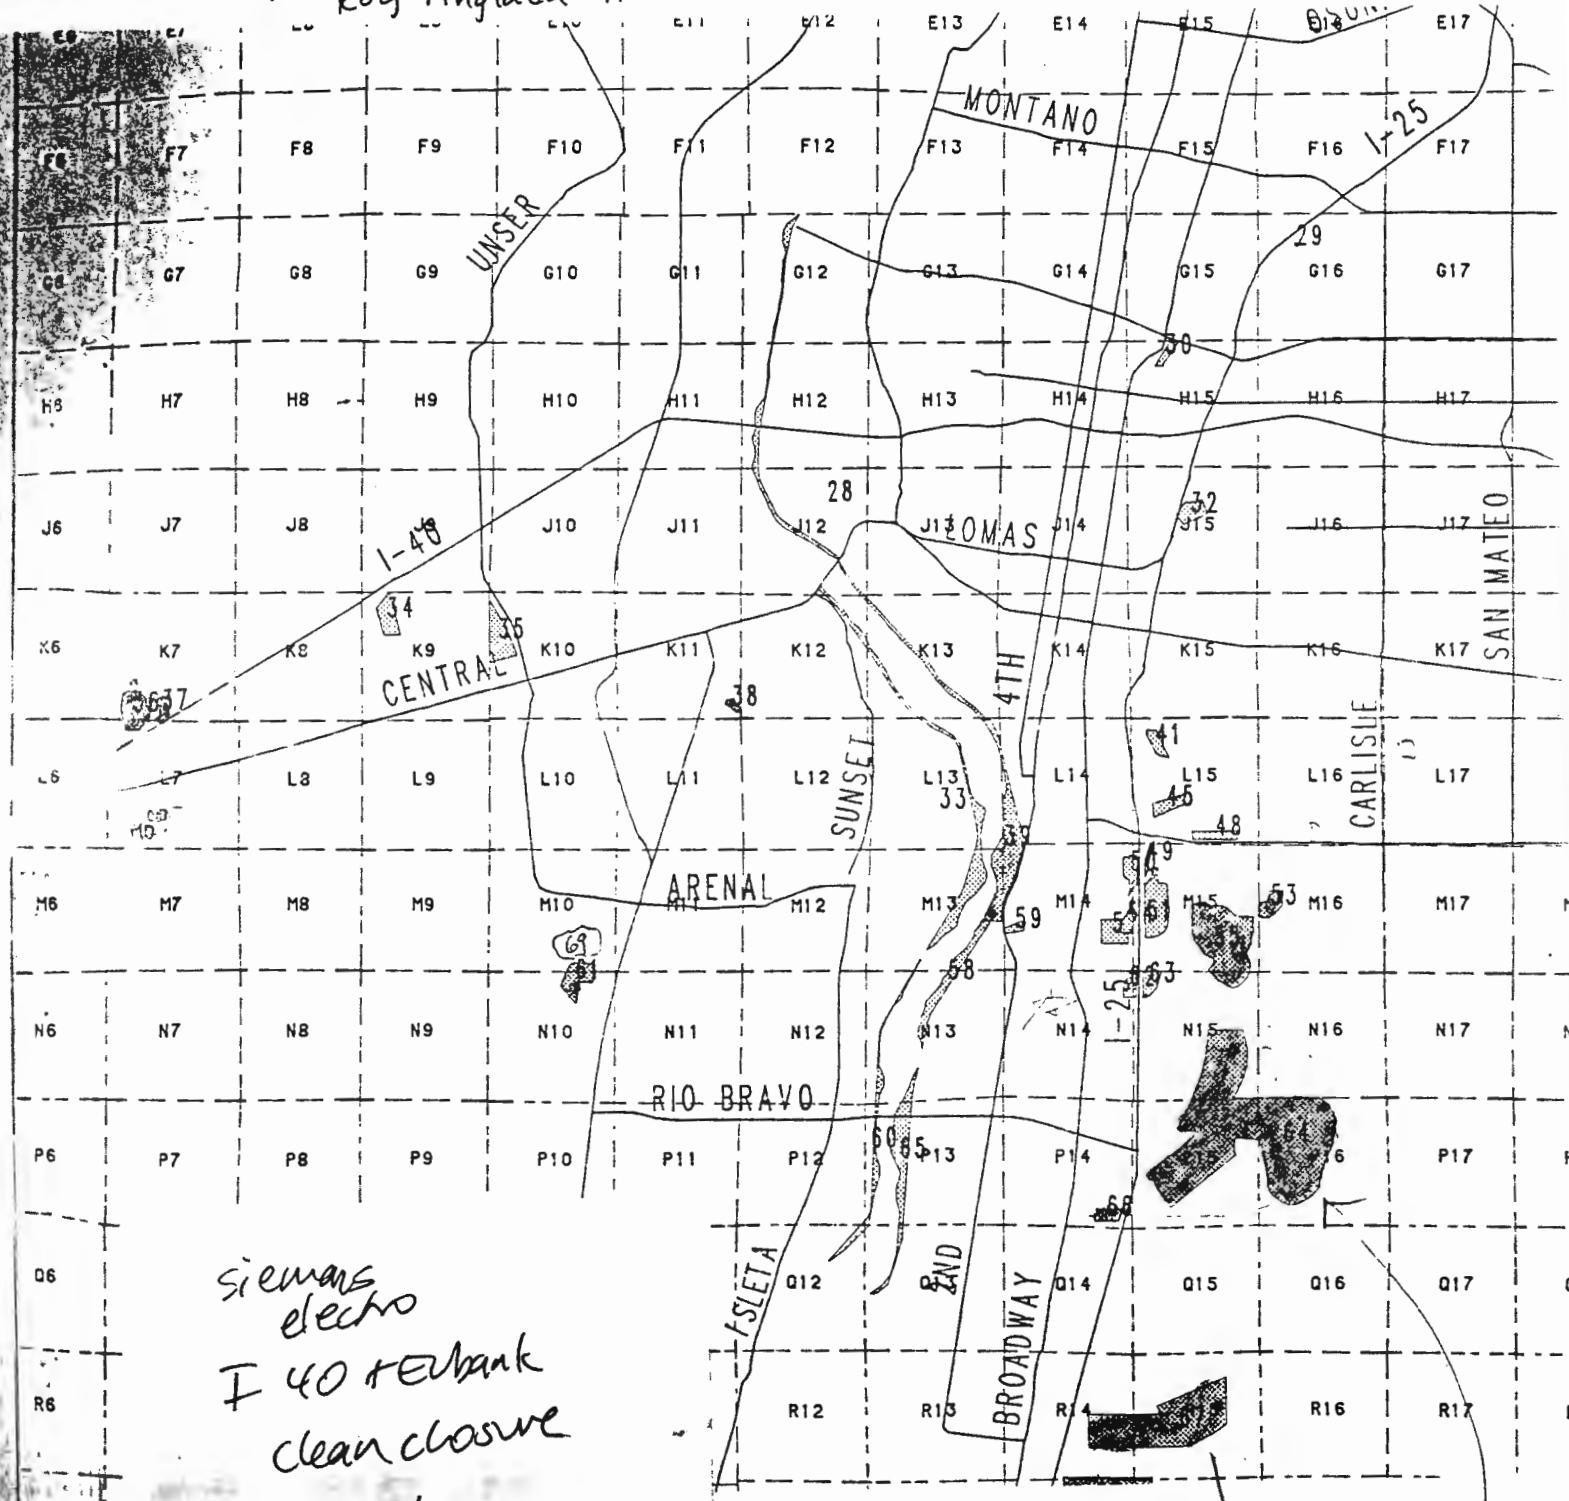

On April 1, 1993, Jane Cramer obtained from Baird Swanson, District I, photocopies of a map showing a former landfill sited east of Ethicon Corp. property where Public Service Company of New Mexico (PNM) is currently conducting a groundwater contamination investigation. The map is titled: Dump and Landfill Sites with Site Numbers in the Albuquerque Vicinity, Albuquerque GIS, August 1990. Jane Cramer and Steve Alexander would like to have access to this information and any other information on PNM or related issues of the investigation of solvent plume at PNM Person Generating Station. H&RMB staff will be coordinating this effort with your staff if this is OK with you. Please call me and let me know.
