Return Receipt Requested

Mr. James Bearzi  
New Mexico Environment Department  
Hazardous and Radioactive Materials Bureau  
P.O. Box 26110  
Santa Fe, NM 87502

Dear Mr. Bearzi:

Subject: Additional Correction to Request for Supplemental  
Information (RSI), Person Generating Station, NMT360010342

Pursuant to a telephone conversation with Mr. Carl Will, NMED HRMB, PNM is proposing the following language change in Volume II, Page 2-5, paragraph four. The paragraph is currently written as:

“3. No additional Appendix IX contaminants are detected above 40 CFR 264.94 concentration limits. (Note that to date, only PCE, 1,1-DCE or 1,1,1-TCA are identified as contaminants of concern despite many years of Appendix IX analysis in the source area).”

This paragraph will be modified to read:

“3. No additional Appendix IX contaminants are detected above WQCC groundwater standards or MCLs, whichever is lower, for the three year period under 40 CFR 264.100(f).”

If you have any questions, please contact me at (505) 241-2998.

Sincerely,

Ron D. Johnson  
Technical Group Leader

enclosure

cc: Carl Will - NMED HRMB
