RCRA POST-CLOSURE CARE PERMIT**

Dear Ms. Mazzoni:

Enclosed is a Draft RCRA Post-Closure Care Permit issued by the New Mexico Environment Department Hazardous and Radioactive Materials Bureau (HRMB) for the above-referenced site in Albuquerque. Also enclosed are a Public Notice and Fact Sheet for the Draft Permit.

The Draft Permit is being issued for a public comment period prior to a decision on the final Permit. The public comment period is from June 12 through July 27, 2000. Please make the Draft Permit and notice documents available during that time period for review by interested members of the public. I will pick-up the documents after July 27.

The Draft Permit consists of four Modules in a comb binding and the Permit Application in five ring-bound volumes.

The Draft Permit and administrative record are also available for review in the Santa Fe office of the Hazardous and Radioactive Materials Bureau, as explained in the Public Notice.
