The New Mexico Environment Department (Department) intends to issue a Hazardous Waste Permit for Post-Closure Care

(Permit) for the Public Service Company of New Mexico (PNM), Person Generating Station (Facility). The Permit requires the Facility to conduct post-closure care and to perform corrective action in accordance with the New Mex-

ico's Hazardous Waste Act (HWA) and its associated regulations. The Department is charged with ensuring that PNM's post-closure care activities are managed in a manner protective of human health and the environment.

The Facility is located in Bernalillo County, New Mexico in the south valley of Albuquerque, approximately one mile east of the Rio Grande River, northeast of the intersection of Rio Bravo Blvd. and Broadway Blvd. The Facility occupies approximately 22 acres. The Facility is a closed electricity generating station owned by PNM (the Permittee) and was in operation between 1952 and 1986. The Facility is located at the following mail-

ing address: PNM Resources, Alvarado Square, Albuquerque, NM 87158-2104. The Applicant's primary contact for this action is: Mr. John Hale at the same mailing address. The Facility generates wastes that are regu-

lated under the federal Resource Conservation and Recovery Act (RCRA), the New Mexico Hazardous Waste Act (Chapter 74, Article 4 NMSA 1978, or the HWA), and their implementing regulations.

The Department also announces the availability of a Fact Sheet providing the basis for the proposed action on the draft Permit and the significant factual and regulatory issues considered in preparing the draft Permit. The Fact Sheet explains the basis for the draft permit and permit conditions, including applicable statutory and regulatory support.

**PUBLIC REVIEW OF
THE DRAFT PERMIT**

The Administrative Record for this proposed action consists of the permit application, the draft Permit, this Public Notice, the Fact Sheet, and other supporting documentation the Department relied on to develop the draft Permit. The Administrative Record may be reviewed, with prior appointment, at the following location during the public comment period.

Ref: PNM draft Permit
Written comments must be based on reasonably available information and include, to the extent practicable, all referenced factual materials. Documents in the administrative record need not be re-submitted if expressly referenced by the commenter. Requests for a public hearing must provide:

(1) a clear and concise factual statement of the nature and scope of the interest of the person requesting the hearing; (2) the name and physical address of all persons whom the requestor represents; (3) a statement of any objections to the draft Permit, including specific references to any conditions; and (4) a statement of the issues which the commenter proposes to raise for consideration at the hearing. The Department will provide a thirty day notice of a public hearing, if one is scheduled.

The Department must ensure that the draft Permit is consistent with the New Mexico Hazardous Waste Management Regulations. All written comments submitted will be considered in formulating a decision on issuance of a final permit, or that may cause the revised draft Permit to be modified. The Department will respond in writing to all public comments. This response will specify which provisions, if any, of the draft Permit have been changed in the final permit and the reasons for the changes. All persons presenting written comments or who requested notification in writing

will be notified of the decision by mail. These responses will also be posted on the Department's website.

After consideration of all the written public comments received the Secretary of the Department or his

designee will make the final decision on this draft Permit. The decision will be publicly available, and shall be included in a notification to the Applicants by certified mail. The Secretary's decision shall constitute a final agency decision and may be appealed as provided by the HWA.
