RE: Person Generating Station (NMT 360010342) – Request to Indefinitely Postpone the Submission of Financial Assurance Information

Dear Mr. Kieling:

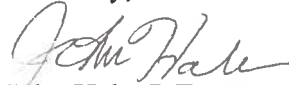

As you may know, NMED provided approval in a letter dated February 13, 2018, for Public Service Company of New Mexico (PNM) to permanently cease operation of the Person Generating Station Groundwater Treatment System, and request termination of all corrective action activities through a Class 3 permit modification.

In anticipation of NMED approving the Class 3 permit modification, PNM requests an indefinite postponement of the submittal of the following items, which are required under 40 CFR 264.145(f)(3).

- A signed letter from PNM's Chief Financial Officer.
- An independent financial auditor's report.

If you have any questions, please contact me at (505) 241-2014 or via email at john.hale@pnmresources.com.

Sincerely,

John Hale, P.E.
Environmental Manager
