Dear Dr. McGerigle:

This is to advise you that because of the 1984 RCRA reauthorization amendments there will be a delay in issuance of your final permit. This delay due to the fact that even though New Mexico has received final authorization these amendments impose new requirements which New Mexico has not yet adopted. Therefore, until such time as New Mexico has adopted these amendments, your final permit will need to be issued jointly by New Mexico and EPA.

EPA has been provided a copy of your draft permit information as prepared by the state in order to commence their permit review.

If you have any questions, please feel free to contact either myself or Boyd Hamilton at 984-0020, Ext. 340.

Sincerely,

Peter H. Pache, Program Manager
Hazardous Waste Section
