Albuquerque, New Mexico 87184

RE: Signetics Corporation - EPA I.D. Number NMD000709782
RCRA Draft Permit

Dear Mr. Mavrakis:

On May 22, 1985, the Environmental Protection Agency (EPA), Region 6, received the amendments to your Resource Conservation and Recovery Act Part B permit application for your facility, EPA I.D. number NMD000709782.

Your application and the additions to the Part B application were reviewed by EPA and found to be technically complete for the requirements of the Hazardous and Solid Waste Amendments of 1984. I have enclosed a copy of the draft permit, statement of basis, and the public notice.

Please note that EPA has not scheduled a public hearing on the draft permit. However, any interested person, including Signetic Corporation, may request a public hearing. If such a public hearing is requested, one will be scheduled. This will require a new public notice and an extension of the public comment period which currently ends on January 17, 1986.

If Signetics has any comments on the draft permit, please submit these comments, in writing, to:

William N. Rhea, Chief
Hazardous Waste Compliance Branch
U.S. EPA (6H-C)
1201 Elm Street
Dallas, Texas 75270

These comments must be received no later than January 17, 1986, the date the public comment period closes. If you have questions regarding the procedures or need further information, please write or call Mr. William Rhea at (214) 767-9732, or have your staff call Ms. Jamie Wright at (214) 767-2614.

Sincerely yours,

Allyn M Davis

Allyn M. Davis, Director
Hazardous Waste Management Division
