

MEMORANDUM

TO: Stephanie Kruse, RCRA Permitting Program

FROM: ^{TD} Teri Davis, RCRA Technical Compliance Program

THROUGH: ^{AK} Ronald A. Kern, Technical Compliance Program Manager

DATE: October 12, 1995

SUBJECT: **Technical Review on Phillips Semiconductors RCRA Closure Plan Addendum, Sampling Plan, dated October 1995, for Hazardous Waste Storage Areas, Albuquerque, New Mexico.**

The sampling and analysis plan (SAP) submitted as an addendum to Phillips Semiconductors RCRA Closure Plan, dated September 1995, for four hazardous waste storage areas is acceptable with the following explanation and modification to the SAP:

<u>Section</u>	<u>Comment</u>
3.2.1	1) The facility should mention if the sampling ports at the waste storage area have ever been sampled and if so, what the results were.
Table 1	2) The performance standard for specific volatile organic constituents should be found on risk-based concentrations. The term Not Applicable utilized in this table should be changed to performance standards or risk-based concentrations presented in the latest version of the EPA Region III Risk-Based Concentration Table.
