SUBJECT: Philips Semiconductors (NMD000709782) RCRA Closure

Dear Ms. Kruse:

Per our conversation on Friday, November 3, 1995, regarding the Philips Semiconductors' Closure Plan and Sampling Plan Addendum, the following items are enclosed:

- Reprinted pages 1, 2, and 6 of the most current revision of the RCRA Closure Plan.
- Reprinted page 4 of the RCRA Sampling Plan Addendum stating that the sampling ports around the tanks have never been sampled.
- Revised Table 3 of the RCRA Sampling Plan Addendum with the correct units of micrograms per liter and utilizing the standards for residential land rather than industrial land.
- IBM Disk with above documents in WordPerfect 5.2 for Windows.

Please continue to keep me informed about the progress of these documents through the approval loop. We are looking forward to going to public comment and completing closure work. If you need any additional information, please call me at 822-7634.

Sincerely,

Melanie McKinley
Environmental Engineer
