RECEIVED

Subject: Notice of permit modification - Philips Semiconductors

To Whom It May Concern:

This letter serves as notification of the Philips Semiconductors RCRA permit modification as required. The New Mexico Environment Department approved this modification to reduce sampling frequency of groundwater wells, which have 8 or more quarters of Tetrachloroethylene concentrations under 10 ppb, to annually. All wells that do not meet these criteria will continue to be sampled on a quarterly basis.

If you have any questions or comments please contact Joe Mauser at (505) 822-7634.
