Dear Mr. Fore:

Enclosed for your information is the draft RCRA operating permit, the public notice and the fact sheet. The public notice to initiate the public comment period will be made on or about January 7, 1991. Comments received from Safety-Kleen by February 21, 1991 will be considered in accordance with the Hazardous Waste Management Regulations, Part IX, as part of the public comment on the draft permit.

You should be aware that once a permit is signed it becomes a legally binding document by which Safety-Kleen must abide. I encourage you to provide a thorough review so that all potential concerns may be addressed.

If you have questions, please contact Mr. David Englert on my staff at (505) 827-0142.

Sincerely,

A. Elizabeth Gordon, Ph.D.
