Dear Mr. Houston:

Please announce over the radio between 7:00 a.m. and 6:00 p.m., Monday - Friday, between May 20, 1991 and July 18, 1991 the following public service announcement:

The New Mexico Environment Department in Santa Fe is considering granting a permit to Safety-Kleen Corporation in Albuquerque to operate hazardous waste storage in container storage buildings and a double-walled underground storage tank. A previous draft permit was submitted January 7, 1991, but significant changes were made to the Flammable Storage Building and the Return and Fill Station in order to comply with local fire codes and revisions to the permit are required. A copy of the revised draft permit is available at the Albuquerque Main Public Library, 501 Copper Ave. NW, in Albuquerque. The public is invited to review the revised document and submit comments addressing only the revisions to the draft permit. Comments will be accepted until July 18, 1991.

If there are charges for this service, please make the announcement only once. If there are no charges, we would appreciate as many announcements beyond the initial one as you may find suitable. Please submit a certificate of date and time of announcement and any bill for charges to Ms. Veronica Aragon at the address above.

Thank you for your assistance. If you have any questions, please contact Mr. David Englert on my staff at the address below or at (505) 827-2905.

Sincerely,

*A. Elizabeth Gordon, Ph.D.*
