Safety-Kleen Class 1 Permit Modification

Dear Mr. Dinwiddie:

In reference to our conversation, November 17, 1995, changes to the storage capacity and secondary containment volume for the Albuquerque facility's flammable Storage Building were omitted from the February 22, 1994 permit modification. Therefore, Safety-Kleen respectfully requests that the storage capacity and secondary containment volume of the Flammable Storage Building, as referenced in the Albuquerque facility permit, be included in the forthcoming Class 1 modification.

Thank you for your assistance. Should you have any questions, please contact me at (505)884-0260.

Sincerely,

Peter Olsen
Environmental Engineer
