Dear Mr. Pomonis:

The New Mexico Environment Department (NMED) has received the Safety-Kleen Systems, Inc. (Safety-Kleen) letter of August 4, 2004, requesting a change to the Safety-Kleen Albuquerque Storage Facility RCRA Permit and the Farmington Storage Facility RCRA Permit. The permit changes consist of new facility Emergency Information pages.

Please be advised that the requested changes constitute a Class 1 Permit Modification, pursuant to 20.4.1.900 NMAC (incorporating 40 CFR 270.42 (a)). Safety-Kleen is, therefore, required to submit a formal request for a Class 1 Permit Modification for both permits. Also, notification of this request must be sent to all persons on the respective facility mailing list to notify persons on those lists and appropriate units of State and local government as required by 20.4.1.900 NMAC (incorporating 40 CFR 270.42(a)(1)). This notification shall occur within 90 days after the change has been put into effect indicating the required information in 20.4.1.900 NMAC (incorporating 40 CFR 270.42(a)(1)(i)). NMED can provide you with an update facility mailing list for both Safety-Kleen facilities in an Excel format. This can be provided via e-mail or by regular mail. Please indicate the manner you would like to receive the facility mailing list.
