**RE: SUBMITTAL OF FINAL REVISED RCRA PERMIT APPLICATION
SAFETY-KLEEN SYSTEMS, INC., ALBUQUERQUE, NM CENTER
EPA ID # NMD000804294
HWB-SKAL-13-001**

Dear Ms. Toossi:

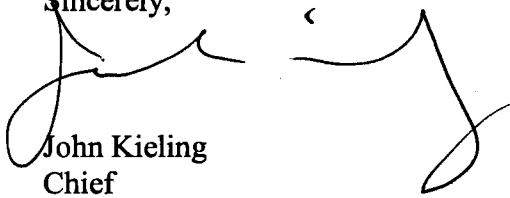

The New Mexico Environment Department (NMED, the Department) has reviewed your June 26, 2017, electronic mail submitted on behalf of Safety-Kleen Systems, Inc., Albuquerque Center (the Permittee). In the submittal, the Permittee is inquiring whether submitting a copy of the permit application text without the accompanying figures and attachments is adequate to replace the April 2016 redline/strikeout copy previously submitted to the NMED by the Permittee.

The New Mexico Hazardous Waste Management Regulations 20.4.1.900 NMAC incorporating 40 CFR § 270.10 (c) state that, "an application for a permit is complete when the Secretary of the Department receives an application form and any supplemental information which are complete to his satisfaction." The proposed partial submittal does not meet the above requirements. NMED requires a complete revised application for its administrative record. Therefore, submit an updated application that includes all the changes made to date since the original submittal. The application must be in the form of two bound hard copies and an electronic copy no later than **July 31, 2017**.

Ms. Toossi
