**RE: APPROVAL OF CLASS 1 PERMIT MODIFICATION (WITHOUT PRIOR APPROVAL)  
SAFETY-KLEEN SYSTEMS, INC., ALBUQUERQUE CENTER, NEW MEXICO  
EPA ID Number NMD000804294  
HWB-SKAL-23-001**

Dear Mr. Dolk:

The New Mexico Environment Department (NMED, the Department) has reviewed the February 1, 2023, *"Request for Permit Modification to the Facility's Part B Permit"*, submitted by Safety-Kleen Systems, Inc., Owner, and Operator (the Permittee) of the Albuquerque Hazardous Waste Container and Tank Storage Center (the Facility). NMED received the request for permit modification on February 3, 2023. In the submittal, the Permittee requested for changes to be made to the Contingency Plan of the current Operating Permit to reflect changes in the Emergency Contact list with current information, and to correct typographic errors.

All the changes of the proposed modification are in Permit Attachment D, Table D.1, where the Emergency Coordinator List was updated to include the home address of Mr. Scott Dolk, the Primary Emergency Coordinator (EC), and to replace Elizabeth Thomas, the former Alternate Emergency Coordinator, (AEC) with Tommy Perez, the Sales Representative. The Permittee also requested that the office and home addresses and telephone numbers of both Mr. Dolk and Mr. Perez be updated pursuant to the requirements specified at 40 CFR §264.52(d).

Following review of the Permit modification proposal, NMED determined that it is a Class 1 Permit Modification not requiring prior Agency approval.

Since the Permit Modification is a self-implementing change that does not require approval from NMED, the Permittee must send a notice of the modification to all persons on the facility mailing list previously received from the Department. The notification must be made within 90 calendar days after the change is put into effect, as required by 40 CFR §270.42(a)(ii).

Page 2

The Permittee must also incorporate the attached updated clean copies of Table D.1, Permit Attachment D into the appropriate section of the current operating permit, upon receipt of this letter.

Further, the New Mexico Hazardous Waste Management Fee Regulations 20.4.2 NMAC require assessment of fees when administrative review of a document is complete. NMED has attached an invoice to this letter. Payment of the fees is due within 60 calendar days from the date that you receive the invoice.

If payment is by check, then you must provide the invoice number on the check. If payment is transmitted electronically, then you must submit a letter to Ms. Jessi Sanchez, NMED Hazardous Waste Bureau, indicating the invoice number, payment amount, and the assessed activity prior to transferring funds.

Should the Permittee need to request an extension of the sixty-day period the request must be submitted at least seven days prior to the end of the sixty-day period. Should the Permittee disagree with the fee assessed you may file an Administrative Appeal under the provisions of 20.4.2.302 NMAC.

Please contact Cornelius Amindyas of my staff at (505) 690-5859 if you have further questions on this correspondence.

Sincerely,

Dave Cobrain  
Acting Chief  
Hazardous Waste Bureau

File: SKAL 2023 and Reading

The Emergency Coordinator and Alternate must be familiar with all aspects of this Contingency Plan, the operations and activities at the facility, the location and characteristics of hazardous waste managed and stored at the Facility, the location of all records within the facility, and the facility layout. In addition, these coordinators have the authority to commit the resources necessary to carry out the Contingency Plan. Their home addresses and telephone numbers, as well as the office telephone number, are listed in Table D.1. At least one employee shall be at the facility or on call to respond to an emergency. A list of emergency equipment available at the facility is included as Table D.3. In addition, facility personnel shall be aware of the location of emergency equipment.
