RE: Permit Modification Request  
Safety-Kleen, Farmington (NMD980698849)

Dear Mr. Wachsmuth;

The New Mexico Environment Department (NMED) has completed its administrative review of the permit modification request submitted by Safety-Kleen on June 25, 1993. Some revisions to the modification were requested at your meeting with NMED staff in the HRMB Library on December 9, 1993.

This permit modification request, with revisions as requested, has been determined to be administratively complete. A determination of completeness does not preclude NMED from requesting additional information from Safety-Kleen to clarify, modify, or supplement previously submitted material. Requests for such additional information will not render this modification request incomplete.

Upon determination of administrative completeness, the New Mexico Hazardous Waste Fee Regulations (HWFR-1), promulgated under authority of the New Mexico Hazardous Waste Act (74-4-1 et seq., NMSA 1978, as amended, 1989), require assessment of a permit fee.

The permit modification has been determined to be class I (minor) modification, pursuant to the New Mexico Hazardous Waste Management Regulations (HWMR-7), Part IX. The fee assessment for each Class I modification is \$1,000 (HWFR-1), 206.B.1).

Please Send payment by check made out to the New Mexico Environment Department to:

Ms. Barbara Hoditschek  
Hazardous Waste and Radioactive Materials Bureau  
N.M. Environment Department  
P.O. Box 26110  
Santa Fe, New Mexico  
87502

This fee must be paid within thirty (30) days of receipt of this letter. Failure to pay the fee will result in the issuance of a compliance order or in a permit modification denial.

Upon receipt of the permit modification fee, review of the permit modification for technical adequacy will be completed. NMED plans to complete the technical review by February 28, 1994.

Thank you for your cooperation in this matter. If you have any questions, please call Robert S. (Stu) Dinwiddie of my staff at (505) 827-4308.

Sincerely,

Barbara Hoditschek  
Program Manager  
RCRA Permits Section  
Hazardous and Radioactive Materials Bureau
