U.S. ENVIRONMENTAL PROTECTION AGENCY
NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES)
STORM WATER BASELINE INDUSTRIAL GENERAL PERMIT COVERAGE NOTICE

August 30, 1996

Dear Operator:

Your Notice of Intent (NOI) for the facility noted below has been processed by the U.S. Environmental Protection Agency. This facility is authorized to discharge storm water associated with industrial activity under the terms and conditions imposed by EPA's NPDES storm water baseline industrial general permit issued for use in the state of New Mexico. Your facility's NPDES baseline industrial storm water general permit number is NMR00A645.

EPA's storm water baseline industrial general permit requires certain storm water pollution prevention and control measures, possible monitoring and reporting, and annual inspections. Among the conditions and requirements of this permit, you must prepare and implement a pollution prevention plan (PPP) that is tailored to your industrial site. Enclosed is a summary guidance document designed to assist you in the development and implementation of your PPP. The summary is organized according to the phases of the pollution prevention planning process. A set of worksheets and an example of a pollution prevention plan are provided for your assistance. As a facility authorized to discharge under this storm water baseline industrial general permit, all terms and conditions must be complied with to maintain coverage and avoid possible penalties.

FACILITY:

Safety Kleen Corp
4210-a Hawkins Rd
Farmington, NM 87401-
