Mr. Peter Olsen
 Environmental Safety and Health Manager
 Safety-Kleen Corporation
 2720 Girard N.E.
 Albuquerque, NM 87107

In Reference To:
 Safety-Kleen Albuquerque Facility EPA Id. No.: NM000804294
 Safety-Kleen Farmington Facility EPA Id. No.: NM980698849

Dear Mr. Olsen:

The New Mexico Environment Department (NMED) has completed review of the requested Class I Permit Modifications to the above named facilities and their respective RCRA Permits. NMED finds the requested administrative modifications to be in accordance with 20 NMAC 4.1 Subpart IX § 901B at 40 CFR 270.42 and hereby approves those modifications.

In addition NMED wishes to thank Safety-Kleen New Mexico for its efforts completing these modifications by rearranging both permits to reflect the same structural organization and by being the first facilities in New Mexico to incorporate a Pollution Prevention and Waste Minimization Plan as an Appendix to their RCRA Permit. NMED also recognizes Safety-Kleen's efforts under these plans to reduce the amount of waste solvents by the replacement of old equipment through normal maintenance procedures adding new and improved drum washing equipment that reduces the quantity of solvent needed to clean emptied containers from over one gallon to approximately eight ounces.

Should you or your staff have any questions concerning this Class I Modification Approval please contact Mr. Jerry Bober or Mr. Carl Will of my staff at the above address or by telephone at (505) 827-1561.

Sincerely,

Ed Kelley, Ph.D.
 Division Director
 Water and Waste Management Division, NMED
