Hi Vanessa,

Attached are proofs for your review. Due to the size of the English + Navajo ad, I had to send the proof as a series of screenshots as it kept cutting off a portion of the ad in the pdfs we were generating. The ads are all set to run in the Farmington Daily Times on August 16, 2019. The total cost is \$419.20 for the English only ad, \$1,313.88 for the English+Navajo ad, and \$458.17 for the Spanish ad. Affidavits will be mailed to you following the final run date of the ad. Any changes must be submitted by 3:00 pm MST on August 15<sup>th</sup>.

Thank you,

**PUBLIC NOTICE NUMBER 19-04**

**NEW MEXICO ENVIRONMENT DEPARTMENT  
HAZARDOUS WASTE BUREAU  
SANTA FE, NEW MEXICO 87505  
August 16, 2019**

**NOTICE OF PUBLIC COMMENT PERIOD AND OPPORTUNITY TO REQUEST A PUBLIC HEARING ON A DRAFT HAZARDOUS WASTE PERMIT FOR SAFETY-KLEEN SYSTEMS, INC., FARMINGTON, SAN JUAN COUNTY, NEW MEXICO  
EPA ID NUMBER NMD980698849**

The New Mexico Environment Department (NMED) is issuing for public comment a draft Hazardous Waste Facility Permit which would authorize J.D. & Joy M. Kinsey, the Owners, and Safety-Kleen Systems, Inc., the Operators (the Permittees) to continue to manage and store hazardous waste at the Safety-Kleen Container and Tank Storage Facility (Facility) located in Farmington, New Mexico. The draft Permit is a proposed renewal of a permit that was issued to the Permittee in 2003.

Under authority of the New Mexico Hazardous Waste Act (HWA; NMSA 1978 574-4-1 et. seq.) and the New Mexico Hazardous Waste Management Regulations (20.4.1 NMAC), the NMED can approve, modify and approve, or deny hazardous waste management permits, permit modifications, and permit renewals. NMED is charged with issuing permits that ensure that the Permittees' hazardous waste operations are conducted in a manner that is protective of human health and the environment.

The Safety-Kleen Systems, Inc., Container and Tank Storage facility is located in the City of Farmington, San Juan County, New Mexico. The facility is located on approximately one acre that contains a 1,530 square foot building with offices and a container storage unit used for drum storage; two 12,600-gallon aboveground storage tanks that store spent solvent or solvent product, two aboveground storage tanks with a capacity of 24,500 gallons and 21,000 gallons used for storage of used oil and antifreeze, respectively, associated loading docks and a solvent Return and Fill station. The address of the facility is: 4210A Hawkins Road, Farmington, New Mexico 87401. The Facility Contact is Mr. Brian Cochran, Area General Manager.

The Facility is an accumulation point for used solvents generated by Safety-Kleen customers. All wastes stored at the Facility are ultimately shipped to a Safety-Kleen recycling facility or a contract reclaimer. The Facility accepts, manages, and stores wastes that are regulated under the Federal Resource Conservation and Recovery Act (RCRA), and the New Mexico Hazardous Waste Act (HWA) and the New Mexico Hazardous Waste Management Regulations at 20.4.1 NMAC. The draft Permit addresses the storage of hazardous wastes in containers and an above-ground storage tank. The Applicant does not seek, and the NMED is not issuing, a permit for treatment or disposal of hazardous waste.

NMED also announces the availability of a Fact Sheet providing the basis for the proposed action on the draft permit and the significant factual and regulatory issues considered in preparing the draft permit. The Fact Sheet explains the basis for the draft permit and permit conditions, including applicable statutory and regulatory support.

**PUBLIC REVIEW OF DRAFT PERMIT**

#### **PUBLIC REVIEW OF DRAFT PERMIT**

The Administrative Record for this proposed action consists of the Permit application, the draft Permit, this Public Notice, a Fact Sheet, and supporting documentation. The Administrative Record may be reviewed, with prior appointment, at the following location during the public comment period.

Written comments must be based on reasonably available information and include, to the extent practicable, all referenced factual materials. Documents in the Administrative Record need not be re-submitted if expressly referenced by the commenter. Requests for a public hearing must provide: (1) a clear and concise factual statement of the nature and scope of the interest of the person requesting the hearing; (2) the name and address of all persons whom the requestor represents; (3) a statement of any objections to the draft Permit, including specific references to any conditions being addressed; and (4) a statement of the issues which the commenter proposes to raise for consideration at the hearing. Written comments and requests for public hearing must be filed with Dave Cobrain on or before **5:00 p.m. MDT, October 15, 2019**. NMED will provide a minimum 30-day notice of a public hearing, if scheduled.

NMED must ensure that the approved draft Permit is consistent with the New Mexico Hazardous Waste Management Regulations. All written comments submitted will be considered in formulating a final decision and may cause the draft Permit to be modified. The NMED will respond in writing to all public comments. This response will specify which provisions, if any, of the draft Permit have been changed in the final decision and the reasons for the changes. All persons presenting written comments or who requested notification in writing will be notified of the decision by mail. These responses will also be posted on the NMED website.

After consideration of all the written public comments received, the NMED will issue, or modify and issue, the Permit. The Permittees will be provided by mail a copy of any relevant modified documents and a detailed written statement of reasons for the modifications. The Secretary of the New Mexico Environment Department will make the final decision publicly available and shall notify the Permittees by certified mail. The Secretary's decision shall constitute a final agency decision and may be appealed as provided by the HWA (Chapter 74, Article 4 NMSA 1978).

#### **AVISO PÚBLICO NÚMERO 19-04**

**DEPARTAMENTO DE MEDIO AMBIENTE DE NUEVO MÉXICO OFICINA DE  
RESIDUOS PELIGROSOS SANTA FE, NUEVO MÉXICO 87505 16 de  
agosto de 2019**

#### **AVISO DE PERÍODO DE COMENTARIOS PÚBLICOS Y OPORTUNIDAD DE SOLICITAR UNA AUDIENCIA PÚBLICA SOBRE UN BORRADOR DE PERMISO DE RESIDUOS PELIGROSOS PARA SAFETY-KLEEN SYSTEMS, INC., FARMINGTON, CONDADO DE SAN JUAN, NUEVO MÉXICO NÚMERO DE IDENTIFICACIÓN DE EPA NMD980698849**

El Departamento de Medio Ambiente de Nuevo México (NMED, por sus siglas en inglés) está emitiendo para comentarios públicos un borrador de Permiso para la Instalación de Residuos Peligrosos que autorizaría a JD y Joy M. Kinsey, los Propietarios, y Safety-Kleen Systems, Inc., los Operadores (Permissionarios), a continuar la administración y almacenamiento de residuos peligrosos en la Instalación de Almacenamiento de Contenedores y Tanques (Instalación) de Safety-Kleen ubicada en Farmington, Nuevo México. El borrador del Permiso es una renovación propuesta de un permiso que se emitió al Permissionario en 2003.

Bajo la autoridad de la Ley de Residuos Peligrosos de Nuevo México (HWA; NMSA 1978 §74-4-1 et. seq.) y el Reglamento de Manejo de Residuos Peligrosos de Nuevo México (20.4.1 NMAC), el NMED puede aprobar, modificar y aprobar, o denegar permisos de manejo de residuos peligrosos, modificaciones de permisos y renovaciones de permisos. NMED tiene a su cargo la emisión de permisos que aseguran que las operaciones de residuos peligrosos de los Permissionarios se lleven a cabo de una manera que proteja la salud humana y el medio ambiente.

La Instalación de Almacenamiento de Contenedores y Tanques de Safety-Kleen Systems, Inc. está ubicada en la ciudad de Farmington, condado de San Juan, Nuevo México. La instalación está ubicada en aproximadamente un acre que contiene un edificio de 1.530 pies cuadrados con oficinas y una unidad de contenedor de almacenamiento utilizada para almacenamiento de tambores; dos tanques de almacenamiento de superficie de 12.600 galones que almacenan solvente gastado o producto solvente, dos tanques de almacenamiento de superficie con una capacidad de 24.500 galones y 21.000 galones utilizados para el almacenamiento de aceite usado y anticongelante, respectivamente, muelles de carga asociados y una estación de retorno y llenado de solvente. La dirección de la instalación es: 4210A Hawkins Road, Farmington, NM 87401. El nombre de la persona de contacto de la instalación es el Sr. Brian Cochran, Gerente General del Área.

La Instalación es un punto de acumulación para los solventes usados generados por los clientes de Safety-Kleen. Todos los residuos almacenados en la Instalación se envían en última instancia a una instalación de reciclaje de Safety-Kleen o un recuperador de contrato. La Instalación acepta, administra y almacena residuos que están regulados por la Ley Federal de Conservación y Recuperación de Recursos (RCRA, por sus siglas en inglés), la Ley de Residuos Peligrosos de Nuevo México (HWA, por sus siglas en inglés) y el Reglamento de Manejo de Residuos Peligrosos de Nuevo México en 20.4.1 NMAC. El borrador del Permiso trata el almacenamiento de residuos peligrosos en contenedores y un tanque de almacenamiento de superficie. El solicitante no busca, y el NMED no emite, un permiso para el tratamiento o eliminación de residuos peligrosos.

NMED también anuncia la disponibilidad de una hoja informativa que proporciona la base de la acción propuesta sobre el borrador del Permiso y las importantes cuestiones fácticas y reglamentarias consideradas en la preparación del borrador del Permiso. La hoja informativa explica las bases para el borrador del Permiso y las condiciones del Permiso, incluido el apoyo legal y reglamentario aplicable.

#### **REVISIÓN PÚBLICA DEL BORRADOR DEL PERMISO**

El Registro Administrativo para esta acción propuesta consiste en la solicitud del Permiso, el borrador del Permiso, este aviso público, una hoja informativa y la documentación de respaldo. El Registro Administrativo puede ser revisado, con cita previa, en la siguiente ubicación durante el período de comentarios públicos.

Los comentarios escritos deben basarse en la información razonablemente disponible e incluir, en la medida de lo posible, todos los materiales fácticos a los que se hace referencia. Los documentos en el Registro Administrativo no tienen que volver a enviarse si el comentarista hace referencia expresa. Las solicitudes para una audiencia pública deben proporcionar: (1) una declaración objetiva clara y concisa de la naturaleza y el alcance del interés de la persona que solicita la audiencia; (2) el nombre y la dirección de todas las personas a quienes representa el solicitante; (3) una declaración de cualquier objeción al borrador del Permiso, incluidas referencias específicas a cualquiera de las condiciones que se abordan; y (4) una declaración de las cuestiones que el comentarista propone plantear para su consideración en la audiencia. Los comentarios escritos y las solicitudes de audiencia pública deben presentarse ante Dave Cobrain a más tardar a las **5:00 p.m. MDT, 15 de octubre de 2019**. NMED proporcionará un aviso mínimo de 30 días de una audiencia pública, si está programada.

NMED debe garantizar que el borrador del Permiso aprobado sea consistente con el Reglamento de Manejo de Residuos Peligrosos de Nuevo México. Todos los comentarios escritos que se envíen serán considerados al formular una decisión final y pueden hacer que se modifique el borrador del Permiso. NMED responderá por escrito a todos los comentarios públicos. Esta respuesta especificará qué disposiciones, si las hubiera, del borrador del Permiso se han modificado en la decisión final y las razones de los cambios. Todas las personas que presenten comentarios por escrito o que hayan solicitado una notificación por escrito serán notificadas de la decisión por correo postal. Estas respuestas también se publicarán en el sitio web de NMED.

Después de considerar todos los comentarios públicos escritos recibidos, NMED emitirá, o modificará y emitirá el Permiso. Los Permissionarios recibirán por correo una copia de cualquier documento relevante modificado y una declaración detallada por escrito de las razones de las modificaciones. El secretario del Departamento de Medio Ambiente de Nuevo México hará pública la decisión final y notificará a los Permissionarios por correo certificado. La decisión del secretario constituirá una decisión final de la agencia y podrá ser apelada según lo dispuesto por la HWA (Capítulo 74, Artículo 4 de la NMSA 1978).
