Dear Ms. Harvey:

The New Mexico Environment Department (NMED) has completed its review of Safety-Kleen Systems, Inc. – Albuquerque and Farmington Facilities (the Permittee) *Response to Direction to Modify – Hazardous Waste Facility Liability Insurance, November 2019, Financial Assurance for Closure - New Insurance Policy PEC0055302xx, November 2019, Annual Inflation Increase for Closure Policy PEC0055302xx, February 2020* received via e-mail on July 17, 2020, and the hard copy received March 11, 2021. The Permittee has met the requirements from the July 1, 2020, Direction to Modify; however, it is NMED’s opinion that the closure cost estimates submitted in response to Comment 4 do not accurately reflect the current closure activities in the renewed RCRA Permits for the Albuquerque and Farmington Facilities. Since the Farmington Facility is undergoing closure, the Permittee will be required to provide updated closure cost estimates only for the Albuquerque Service Center as part of the 2022 financial assurance submittal. This requirement is addressed in separate correspondence.
