CERTIFIED MAIL - RETURN RECEIPT REQUESTED

NM ENVIRONMENT DEPARTMENT
OFFICE OF THE SECRETARY

Ms. Kathleen Sisneros, Chief
New Mexico Environment Department
Hazardous and Radioactive Materials Bureau
1190 St. Francis Drive
Santa Fe, NM 87503

Dear Ms. Sisneros:

The purpose of this letter is to notify you of exceedances in volumes of certain hazardous wastes managed at our facility, Sandia National Laboratories (SNL), Albuquerque. During recent preparation for the New Mexico Environment Department's annual Resource Conservation Recovery Act (RCRA) inspection, SNL waste management personnel compiled a list of EPA Waste Codes and volumes managed during 1990, and through May 30, 1991.

As a result of this review, it was discovered that during 1990 and through May 1991, SNL has managed volumes of the selected EPA Waste Codes that exceed the estimates in our latest RCRA Part A submittal dated April 1991. The EPA Waste Codes and volumes in excess of Part A estimates are shown on the enclosed Attachment 1. The proposed corrective action will be to update the volume estimates in the RCRA Part A as part of the formal comment package we will be submitting on the Draft RCRA Operating Permit before the September 9, 1991 deadline.

Please contact Sue E. Umshler of my staff at 845-6671 or Kylene Molley of SNL at 844-2699, if you have any questions or if additional information is required at this time. If you would require any additional or difference corrective actions, please contact us with your requirements.

Sincerely,

Thomas Bolyde
