Hi Will and Bill:

It's been a long time, but I thought I'd give it a shot anyhow.

You both attended the WERC public meetings both days re: the WERC independent peer review of the CMS for the MWL.

On day 2 there was a guy from SNL who spoke about risk at that meeting. I did not catch his name. He said that SNL could not do a risk assessment due to the incompleteness of the MWL inventory. Do you remember his comment -- and can you tell me who that person from SNL was? I've checked the agendas and the only two people from SNL/DOE who were actually listed as speakers were Dick Fate and Joe Estrada. Thanks,
