Subject: review of information requests

Dear Ms. Allen,

I would like to make an appointment to review information for several information requests that include: January 17, 2007; March 29, 2007; April 2, 2007; April 4, 2007 and April 20, 2007.

Please inform me when would be a good time to review documents. I will be in Santa Fe June 13 if that would be acceptable. It may take more than a day, but I'm not sure.

Thank you for your help. Have a nice week.

Dave McCoy

Subject: McCoy

James and Will,

McCoy contacted Pam today and requested that he be able to come to HWB offices (June 13) in Santa Fe to review records from several IPRA responses.

My first suggestion was to have Pam pull the records as she best can and then have her get together with you, Will, to make sure that they are the correct documents as requested in the IPRA's. We then schedule the time for McCoy (be it June 13 or another time) in one of the conference rooms downstairs with an observer (Cynthia, Danielle).

Let me know if you have other suggestions.

Thanks

John,

Can you find out what he would first want to see? Then we can pull enough records to keep him busy for all day, if he wants to stay that long.

- Will

Subject: RE: McCoy

It think that's a good idea. Should I write McCoy and ask him which documents he wants pulled? They have charged (frivolously) in the past that they can't find the documents they want, and I want to avoid that charge.

Do we have an updated index to the SNL AR?

thx

Subject: SNL IPRA requests/inspection on June 13, 2007
Attachments: SNL 6-10-1998 Response on Phase 2 RFI Report - Cover letter and Att 2-1 only.pdf

Dear Mr. McCoy:

The NMED Hazardous Waste Bureau will make available for your review on June 13, 2007 the documents requested in your January 17, 2007, March 29, 2007 and April 2, 2007 requests under the Inspection of Public Records Act.

I would like to note the following:

In our January 19 response to your January 17 request, we provided the information requested, the SNL Corrective Measures Implementation Work Plan on our website and we attached two letters requested to our response.

In our May 25 response to your March 29 request, there are specific documents addressed in the letter, such as #1 - the MWL Annual Groundwater Monitoring Report for 2006, #6 - Phase 1 and 2 RFI Reports, #8 - Phase 2 RFI Report and 3-23-2007 and 4-16-2007 NMED letters to Citizen Action, the RFI Reports have been provided to Citizen Action and the 2006 Report is available on the NMED ftp site < ftp://ftp.nmenv.state.nm.us/hwbdocs/HWB/snl/Mixed_waste_landfill/ >. Also, the letter responds more generally to groundwater data (items 2, 3, 4, 5) and well information (items 17a, c and d). The May 25 response also includes a number of items to which we do not have information.

In our May 21 response to your April 2 request, there is a specific document (a map) that is in the Sandia MWL administrative record, and which is attached.

In your March 29 and April 2 requests, you generally request data related to groundwater monitoring. Because of the volume of such data that we have, please more specifically identify the information you seek.

We would like to avoid duplication of effort, as we assume you would like to do also, and therefore assume that you do not seek access to documents we have already made available to you.

As we read your letters of April 4, 2007 and April 20, 2007, they do not request specific documents. If there are specific documents that you request in these two letters, please identify those and we will make them available on June 13 if they are located in the HWB library.

Sincerely,
Tannis Fox
