Subject: EPA IG Report on Sandia Mixed Waste Landfill

Some months ago, some of your staff were out here in New Mexico conducting an investigation into the New Mexico Environment Department's, and specifically my Bureau's, regulatory actions concerning Sandia National Laboratories' Mixed Waste Landfill. Your investigation was spurred by complaints by Mr. Robert Gilkeson and Citizen Action New Mexico. I understand your investigation is complete, and in fact, that the report has been made final.

I would greatly appreciate any assistance you may give me in obtaining a copy of the report. If you are the wrong contacts for my inquiry, I would appreciate your steering me in the right direction. Please feel free to contact me should you have any questions or require more information.

Again, I thank you in advance for any help you can give me in tracking down the report.

James P. Bearzi
Chief
Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
