Don Schrader
Host of weekly TV
program since 1992

I demand a public hearing
for the Long Term Maintenance
and Monitoring Program for
the Mixed Waste Landfill at
Sandia Labs.

I demand excavation of
the long-lived radioactive
and hazardous wastes at that
dump!

I demand that adequate
groundwater monitoring be
installed at the MWR dump.

I demand a public hearing
for the MWR dump as part of
the Sandia ~~to~~ hazardous
waste permit process!

Have the conscience and
the courage to STAND UP
