NM Environment Department
Office of the Secretary

NMED Hazardous Waste Bureau
John Kieling, Chief
2905 Rodeo Park Drive East, Bldg. 1
Santa Fe, New Mexico 87505

Dear Mr. Martin and Mr. Kieling,

Enclosed is the second set of 122 petition signatures requesting that the NMED provide an evidentiary public hearing for the Sandia National Laboratories' Mixed Waste Landfill Long-Term Monitoring and Maintenance Plan as a matter of significant public concern.

The history of the Mixed Waste Landfill dump and the level of public concern for the threat that its radioactive and hazardous contaminants in unlined pits and trenches pose to the aquifer and public health of New Mexicans remains high and justify a full public hearing.

We appreciate your consideration of this request. Citizen Action will be filing detailed comments regarding our concerns for the dump and the LTMMP.

Sincerely,

David B. McCoy, Executive Director
Citizen Action New Mexico
POB 4276
Albuquerque, NM 87196-4276

Enclosed: Petitions 10 pages

**PETITION FOR A PUBLIC HEARING FOR SANDIA NATIONAL
LABORATORIES MIXED WASTE LANDFILL LONG-TERM
MAINTENANCE AND MONITORING PLAN**

We, the undersigned, state:

Sandia Labs plans to leave dangerous radioactive and hazardous wastes in unlined pits and trenches at the Mixed Waste Landfill (MWL).

The dump's wastes are contaminating the aquifer that supplies Albuquerque's drinking water wells.

The dirt cover installed over the MWL dump will not prevent releases of waste air, water and soil.

No reliable groundwater monitoring network is installed to monitor the groundwater beneath the dump.

The wastes should be excavated to protect Albuquerque's drinking water.

The undersigned request the New Mexico Environment Department hold a public hearing for Sandia's Long-Term Monitoring and Maintenance Plan as Matter of Significant Public Concern:
