

Sandia National Laboratories  
Mixed Waste Landfill  
Long-Term Monitoring and Maintenance Plan  
Public Comment

Name: Susan Setbin  
Address: 2431 Northwest Cir, NW  
City: ABQ  
Zip Code: 87104

- CitizenAction
- Name <sup>Time</sup> - not a <sup>time</sup>land fill (dump now a "regulated unit")  
"Land Fill"
  - violations of mgmt of a "regulated unit"
  - monitoring wells are in the wrong place (except NW3)
  - defective ground water monitoring led to negative results.  
Results based upon phoney data.
  - SNL does the monitoring why not a neutral group?
  - Credibility of NMED, DOE + SNL is questionable / Inspector  
General Report questioned the placement of wells. 5 year review  
was not done.
  - The cost for proper clean up is such that doing so is  
required by NMED, DOE + SNL. What's the price of public health?  
Legacy waste of the whole nation needs to be addressed by  
Conclusion & the nation.

\* WE DEMAND A PUBLIC HEARING allowing the  
presentation of evidence, cross examination and a  
court reporter for an official transcript.

*Susan Setbin*

*John Keling, Chief  
Hazardous Waste Bureau*

At Meeting: Give comment sheet to any NMED representative.

COMMENT PERIOD ENDS 5:00 PM MST, NOVEMBER 13, 2012

*Mike Mitchell, SNL contractor with Graham, Inc.*

Comments - *Dump - not a landfill and should reflect that in the name.  
(solid waste impoundment)*

- *Protected for surface escape but not below the contamination - unlined pit*

- *1 year to analyze when a trigger has been activated*

- *most frequent monitoring is quarterly and some <sup>is</sup> semi-annual or annual*

*Annual report 4/1-3/31 due June 30 each year.  
<sup>Report within 60 days</sup>*

- *How much time is involved in quarterly inspections?*

- *Who pays for this program?*

- *What dangers are present for monitors - do monitors when protective suits*
