RE: APPROVAL OF CLASS 1 PERMIT MODIFICATION (WITHOUT PRIOR APPROVAL), SANDIA NATIONAL LABORATORIES/NEW MEXICO EPA ID# NM5890110518 HWB-SNL-17-007

Dear Mr. Harrell and Mr. Moya:

The New Mexico Environment Department (NMED) has completed review of the "*Notification of Class 1 Modifications to Hazardous Waste Permits, Sandia National Laboratories/New Mexico (SNL/NM)*". The request for Permit Modification was submitted by the Department of Energy/National Security Administration (DOE/NNSA) and Sandia Corporation (collectively the Permittees). NMED received the request for permit modification on May 2, 2017.

In the request the Permittees proposed modifications to the following permits:

1. Resource Conservation and Recovery Act Facility Operating Permit (Permit) at SNL/NM; and
2. Hazardous Waste Post-Closure Care Permit (PCCP) for the Chemical Waste Landfill (CWL) at SNL/NM.

Mr. Harrell and Mr. Moya
Page 2
June 16, 2017

The Permittees request the changes to reflect the change in the name of the Operator at Sandia National Laboratories. The current Operator is Sandia Corporation. On May 1, 2017, the name of the Operator was changed from Sandia Corporation to National Technology and Engineering Solutions of Sandia, LLC (NTESS). The Permittee added that the Operator under each of the two permits will remain the same; and that this is a change in name only.

Details of the permit modifications are documented in the enclosed Attachments, which the Permittees must incorporate into the appropriate sections of the current operating permit and into the appropriate sections of the Post-Closure Care Permit for the Chemical Waste Landfill upon receipt of this letter. The subject changes are summarized in the following bulleted items.

- Facility operating Permit Parts 1,3, and 8, and Permit Attachments A and D, with the proposed revisions shown in redline/strikeout format. The finalized Permit Parts and Attachments of these Parts and Attachments are also included.
- Revised pages of the Post-Closure Care Permit for the Chemical Waste Landfill Parts 1 and 2, and Permit Attachments 1 and 6 with the proposed modifications are shown in redline/strikeout format. The revised pages of these PCCP with the modifications in final form are also attached.

Since the Permit Modification is a self-implementing change that does not require approval from NMED, the Permittees must, pursuant to 40 CFR §270.42(a)(ii), send out a notice of the Permit modification to all persons on the Facility mailing list previously received from the Department. This notification must be made within 90 calendar days after the change is put into effect.

Further, the New Mexico Hazardous Waste Management Fee Regulations 20.4.2 NMAC require assessment of fees when administrative review of a document is complete. NMED has attached an invoice to this letter. Payment of the fees is due within sixty (60) calendar days from the date that you receive the invoice.

If payment is by check, then you must provide the invoice number on the check. If payment is transmitted electronically, then you must submit a letter to Mr. James Valdez, NMED Hazardous Waste Bureau, indicating the invoice number, payment amount, and the assessed activity prior to transferring funds.

Should the Permittees need to request an extension of the sixty-day period the request must be submitted at least seven days prior to the end of the sixty-day period. Should the Permittees disagree with the fee assessed you may file an Administrative Appeal under the provisions of 20.4.2.302 NMAC.

Mr. Harrell and Mr. Moya
