Please note the request for Time Extension for submission of comments based on failure of Sandia to provide waste information as per the 2016 Final Order. I do expect an answer on that issue. NMED should have previously taken the initiative on this item to get the metallic sodium and further information in the FOIA. For its due diligence, Mr. Kieling could send a letter to SNL/NNSA asking that the information for the FOIA be immediately provided. NNSA has identified the information exists and will be imminently sent, but that will require a bit of time for review.

Also, I intend to submit further Comments by tomorrow.
