71

Dear Mr. Clayton:

Sparton Technology Inc. has submitted the attached report "Corrective Measure Study Report", July 23, 1987, which documents several alternative strategies for aquifer restoration at their Coors Road facility. This corrective action will be subject to an EPA corrective action order, a post-closure care permit and a Ground Water Bureau consent agreement.

Please have your staff review this document and advise me on any applicability of the Air Quality Regulations which may also need to be incorporated into our action. The supporting documentation is extensive and may be reviewed, if desired, in the Hazardous Waste Section.

Please also return the attached report with your response.

Sincerely,

*C. Kelley Crossman*

C. Kelley Crossman  
Permitting Supervisor
