Dear Mr. Mico:

As I indicated in my conversation with your secretary, the Comprehensive Groundwater Monitoring Evaluation (CME) schedule change to accommodate Bobby Williams, EPA has been cancelled.

I am now requesting a schedule change to the week of July 17, 1989. This schedule change would accommodate Julie Wanslow's, my supervisor. I have checked with our laboratory and Bobby Williams and they can accommodate that time change.

Please let me know as soon as possible if your schedule will accommodate changing the CME to the week of July 17, 1989.

Sincerely,

V. Suzanne Moore-Mayne
