RE: Sparton Off-Site Monitoring Well Specification

Dear Mr. Richardson:

The following modifications to specifications for the three upper flow zone monitoring wells located west-southwest of monitoring well MW-36(OS) are approved by U.S. Environmental Protection Agency (EPA).

Maximum Screen Length:	15 feet
Screen Slot Size:	0.020 inch
Well Diameter:	4 inches

These specifications for the three monitoring wells will modify the specifications approved under Section II.A. of the RCRA Facility Investigation Workplan, dated December 28, 1988, and revised March 3, 1989.

Should you have any questions, please do not hesitate to contact Bobby Williams, of my staff, at (214) 655-6480.

Sincerely,

Guy L. Tidmore
